### Making Pin Money So many people of moderate means let

opportunities slip by through which they could make a little extra money to help make life easier and more pleasant. The housewife especially could turn her hand to many things in spare moments, if she only had the way pointed out to her.

Here is at least one suggestion for the thrifty housekeeper: There's that spare room which has been empty all winter, and yet you could have been making from \$4 to \$7 a week out of it by renting to a desirable tenant.

Or perhaps your son or daughter are going to be away most of the summer, and their rooms will be vacant Why don't you rent them for a few months at least? You'll find the money will come in mighty handy. The present is the best time to begin to make up for lost opportunities, so send a Want Ad to-day and see how quickly you'll get the tenant you want.

Want Ads mean money for those who know how to use them.
